

# ARGON 18 PRESENTS THE **E-118 TRI+** FAST, FIT, FEARLESS

## A UCI-LEGAL TRI BIKE WITH THE LEAN, LOW RACE FRAME OF A TT CHAMPION, TAILORED FOR TRIATHLETES.

### AGGRESSIVE FIT AND POSITIONING

- New geometry provides a significantly lower, more aerodynamic front profile. Our updated ONEness system offers a bar/stem system with armrest stack 2cm lower and grip position 4cm lower than the E-118Next. Allows athletes to achieve an aggressive position, and for smaller riders to find their perfect fit.

### DESIGNED FOR HIGHLY TECHNICAL COURSES

- Superb handling with the confidence of disc brakes. TT-level stiffness provides increased power transfer, and confident climbing and cornering comes through the lower position available on the base bar, with a 1.5cm increase in the saddle to handlebar drop over the E-118Next.

### LIGHTWEIGHT

- At 1200g (medium frame), the E-118 Tri+ is among the lightest tri bikes on the market. Working within the UCI limits on tube size pushed us to shave all unneeded bulk off the frame, for a lean, lightweight racer that leaves you fresh for the run.

**ARGON 18**

# E-118 TRI+ FAST, FIT, FEARLESS

*"It's impossibly stable.  
It's actually hard to describe how it feels  
in a fast corner. 'On the rails' is a cliché, but  
it works here. That means it gives you  
confidence, supreme confidence.  
I think athletes will really latch onto that.  
The less you have to think about the bike  
and the more you can just believe in it,  
the better results you have."*

**Pro Triathlete Eric Lagerstrom**

## GEOMETRY

| SIZE CLASSIC |                   | XS<br>47-50 | S<br>51-53 | M<br>54-56 | L<br>57-59 |       |
